Research Experiences

Research Assistant (EEG/ECG) - Decision-making, Learning and Cardiac Cycle | Feb 2026 - Ongoing
Philiastides Lab, University of Glasgow, School of Psychology and Neuroscience
- Contributing to data collection including EEG and ECG, Participants recruitment
- Supporting experimental setup, participant testing, and data acquisition
- Assisting with data quality control

Research Assistant (EEG/fMRI) - Decision-making and Metacognition | June 2025 - Ongoing
Philiastides Lab, University of Glasgow, School of Psychology and Neuroscience
- Contributing to data collection including EEG and fMRI Setup on perceptual decision-making and metacognition
- Supporting experimental setup, participant testing, and data acquisition
- Assisting with data quality control

Primary Researcher - Social Media and Uncertainty | June 2025 - Sep 2025
University of Glasgow, Adam Smith Business School
- Conceptualisation, research design, task design using Gorilla
- Ethical approval, data collection and participants recruitment
- Data analysis, Writing and editing dissertation

Primary Researcher - Childhood poly-victimisation and Behavioural Problems and Impulsivity among Iranian Adults (Bachelor Dissertation) **|** Feb 2023 - Sep 2023
University of Social Welfare & Rehabilitation Sciences Department of Clinical Psychology

- Conceptualised and designed the study
- Led the Ethical Approval Process
- Conducted data collection and statistical analysis, Interpreted findings
- Manuscript writing and Editing

Research Assistant - Cognitive HTKS Task among Children
University of Social Welfare & Rehabilitation Sciences Department of Psychology and Education of Exceptional Children

- Led the ethics approval process with governmental and educational authorities for research involving children aged 5–8
- Coordinated with schools to recruit participants and administer the Head-Toes-Knees-Shoulders (HTKS) task
- Conducted behavioural data collection in school settings
- Identified and reported atypical or concerning observations to schools, supervisors, and parents in accordance with ethical guidelines
- Organised, coded, and entered behavioural data into SPSS for subsequent statistical analysis

Research Assistant - Social Media Problematic Usage
University of Social Welfare & Rehabilitation Sciences Department of Clinical Psychology

- Conducted online and in-person data collection for studies on problematic social media use
- Coordinated participant recruitment and screening across clinical and non-clinical samples
- Organised, cleaned, and managed datasets; performed data entry and wrangling for statistical analysis
- Contributed to manuscript drafting, revision, and editing for peer-reviewed publication

Invited Presentations

Social Media and Uncertainty **|** Nov 2025
University of Amsterdam, Connected Minds Lab

Volunteering Experiences

Peer-Reviewer, InFrame Project, University of Glasgow, Edinburgh and St Andrews **|** Jan 2025

- Reviewed and evaluated research proposals for scientific merit, feasibility, and alignment with project objectives
- Provided structured feedback to applicants to improve methodological clarity and impact
- Collaborated with a multidisciplinary review panel to support research quality and inclusivity

Suicide Crisis Counselor, Iran Hotline Suicide Prevention(NGO) **|** June 2023 – June 2024
Provided crisis support and intervention for individuals experiencing suicidal ideation

Mentorship Programme Coordinator for Underprivileged Children, USWR **|** Jan 2023 - July 2023
Coordinated and facilitated a mentorship programme supporting children's academic performance and social development

Editor & Writer; Persona Psychological Magazine **|** 2022 - 2023
Edited and authored psychology-related content for an academic-facing publication

Administrative Coordinator; Counselling centre; University of Social Welfare and Rehabilitation **|** Jan 2023 - July 2023
Supported the organisation and coordination of counselling workshops and academic events

Skills

Methods & Analysis

Experimental & Survey Designs
Psychometric Analysis
EEG (Setup & Preprocessing)
fMRI (Setup and data acquisition)
Bayesian Modelling
Regression Analysis
ANOVA
