Kasra Mirnobahar

0009-0001-2363-6381 | Kasramirnobahar.github.io Kasra.Mirnobahar@glasgow.ac.uk

Education

Msc **Behavioural Sciences**, University of Glasgow Sep 2024 - Sep 2025
GPA: Merit
Awarded Behavioural Sciences Scholarship
Dissertation: The Impact of Reward Timing Predictability on Checking Behaviour in Social Media (Graded A3)

Bachelor of **Psychology,** University of Social Welfare and Rehabilitation Sciences Aug 2019 - Oct 2023
GPA: 17.58 (Out of 20) - 3.71/4 - First Class Honours
Dissertation: The relationship between Poly-Victimisation and Behavioural Problems Among Individuals with Psychiatric Disorders (Graded A1)

Publications

Pourmohamadreza-Tajrishi M, **Mirnobahar K**, Mohammadi Bytamar J. Assessing Childhood Trauma: The Iranian Validation of the Juvenile; Polyvictimizaion Questionnaire and Its Link to Psychiatric Symptoms. Int J High Risk Behav Addict. 2025; 14 (3): e163153. https://doi.org/10.5812/ijhrba-163153

Mirnobahar K, Pourmohamadreza-Tajrishi M, Mohammadi Bytamar J. Impact of Childhood Poly-victimization on Impulsivity and Behavioral Problems in Iranian Adults: A Regression Analysis.Iran J Psychiatry Behav Sci.2025;19(3):e159188.https://doi.org/10.5812/ijpbs-159188.

Research Experiences and Projects

Research Assistant (EEG/ECG) - Decision-making, Learning and Cardiac Cycle Feb 2026 - Ongoing
Philiastides Lab, University of Glasgow, School of Psychology and Neuroscience

- Contributing to data collection including EEG and ECG, Participants recruitment
- Supporting experimental setup, participant testing, and data acquisition
- Assisting with data quality control, data cleaning and analysis using Python

Research Assistant (EEG/fMRI) - Decision-making and Metacognition of Confidence June 2025 – March 2026
Philiastides Lab, University of Glasgow, School of Psychology and Neuroscience

- Contributing to data collection including EEG and fMRI Setup on perceptual decision-making and metacognition
- Supporting experimental setup, participant testing, and data acquisition
- Assisting with data quality control, EEG data preprocessing using MATLAB and EEGLab

Primary Researcher - Social Media and Uncertainty June 2025 - Sep 2025
University of Glasgow, Adam Smith Business School

- Independently conceptualised and designed a study examining how reward timing predictability shapes social media checking behaviour, directly engaging with explore/exploit decision-making frameworks
- Designed a multi-component experimental task in Gorilla.sc, including a simulated social media environment feed, where participants can explore feed and upload their own posts and receive likes
- Led ethical approval process, recruited and screened participants, and coordinated all data collection logistics, ensured data integrity throughout collection and analysis in line with ethical research standards
- Conducted full quantitative analysis in R; wrote and edited the dissertation manuscript

Research Assistant - Cognitive HTKS Task among Children via Schools June 2022 – Feb 2023
University of Social Welfare & Rehabilitation Sciences Department of Psychology and Education of Exceptional Children

- Coordinated participant recruitment from school settings for children aged 5–8, liaising directly with school administrators and teachers to obtain institutional access and schedule data collection visits
- Managed the informed consent and assent process with parents, guardians, ensuring all procedures met ethical and safeguarding standards
- Administered multiple cognitive and behavioural task in classroom environments across multiple school visits, adapting delivery to child-appropriate communication
- Organised, coded, and maintained structured participant records and behavioural datasets in SPSS, ensuring accuracy and completeness across multiple data collection sessions
- Led the full ethical approval process with governmental and educational authorities, including risk assessment for research involving young children

Research Experiences (continued)

Research Assistant - Social Media Problematic Usage — Feb 2023 - Sep 2023

University of Social Welfare & Rehabilitation Sciences Department of Clinical Psychology

- Coordinated participant recruitment, screening, and ongoing engagement across study sessions for both clinical and non-clinical samples
- Conducted online and in-person data collection for studies on problematic social media use,
- Organised, cleaned, and managed datasets; performed data entry, wrangling, and regular quality checks for statistical analysis
- Contributed to manuscript drafting, revision, and editing for peer-reviewed publication

Primary Researcher - Childhood poly-victimisation, Behavioural Problems & Impulsivity (BSc Dissertation) — March 2023 - Sep 2023

University of Social Welfare & Rehabilitation Sciences Department of Clinical Psychology

- Independently conceptualised and designed the study; led the full ethical approval process
- Conducted data collection with clinical and community adult samples; performed regression analysis and psychometric validation in SPSS and R
- Manuscript writing and Editing; Findings published in two peer-reviewed international journals

Working Experience

Researcher; Jahan Majd Basir Co. — Aug 2023 - Dec 2023

Conducted cross-cultural research on social, cultural, religious, and belief systems across multiple regions

Contributed to data collection and synthesis for applied research projects

Science Communicator; Varan Psychology School — Oct 2021 - July 2022

Produced accessible psychology content across clinical, cognitive, and neuroscience topics for an educational platform; coordinated workshops, guest lectures, and professional development sessions.

Volunteering Experiences

Peer-Reviewer, InFrame Project, University of Glasgow, Edinburgh and St Andrews — Jan 2025

- Reviewed and evaluated research proposals for scientific merit, feasibility, and alignment with project objectives
- Provided structured feedback to applicants to improve methodological clarity and impact
- Collaborated with a multidisciplinary review panel to support research quality and inclusivity

Suicide Crisis Counsellor, Iran Hotline Suicide Prevention (NGO) — June 2023 – June 2024

- Provided crisis support and intervention for individuals experiencing acute suicidal ideation, following structured clinical safeguarding protocols including escalation procedures
- Developed skills in sensitive, trauma-informed communication with vulnerable individuals in distress; maintained professional boundaries and accurate case documentation

Mentorship Programme Coordinator for Underprivileged Children, USWR — August 2023 - Oct 2023

Coordinated and facilitated a mentorship programme supporting children's academic performance and social development across multiple school settings

Administrative Coordinator, Counselling centre; University of Social Welfare and Rehabilitation — Jan 2023 - July 2023

Organised and coordinated counselling workshops and academic events; managed scheduling, logistics, and stakeholder communications

Invited Presentations, Conferences

Does Uncertainty Drive Compulsive Checking? Causal Evidence from a Simulated Social Media Task — July 2026 (Upcoming)

BPS Cyberpsychology Annual Conference 2026; York St John University

Social Media and Uncertainty: How Reward Timing Predictability Shapes Checking Behaviour — Nov 2025

University of Amsterdam, Connected Minds Lab

Skills

Methods & Analysis	Programming & Softwares	Neuroimaging
ANOVA	R	EEG (Setup & Preprocessing)
Bayesian Modelling	Matlab/EEGLab	fMRI (Setup and data acquisition)
Regression Analysis	SPSS	
Experimental & Survey Designs	Python	
Psychometric Analysis	Gorilla.sc	

Languages

Persian: Native **English:** C1 **German:** A2
